Use and operation of the helipad are conditioned upon obtaining FAA and other governmental approvals. Approval has not yet been obtained. No assurance can be given about whether the approvals can be obtained, and/or if so, the timing of same. Stated dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes interior structural components). Additionally, measurements of rooms set forth on any floor plan are generally taken at the greatest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate, and all floor plans and development plans are subject to change. VISIONARY ARCHITECTURE FOR A PREMIER GLOBAL CITY

www.miamicondoinvestments.com

As Miami has transformed into a truly global city in recent years, it has become a prime location for the development of a world-class residential skyscraper that will meet the expectations of clientele with sophisticated taste. Beyond a prominent location distinguished by unparalleled views and visibility, such a project demands an ambitious creative vision, one that will offer private ownership of an iconic piece of architecture. One Thousand Museum is a celebration of excellence and innovation. It is a bold physical statement about the essence of Miami through the eyes of Dame Zaha Hadid.

This prestigious residential tower appears as a continuous piece of contemporary sculpture from the podium to the crown. The contrast between the robust exoskeleton and the crystalline glazing of the glass façade beneath it is one defining characteristic. The other defining characteristic is the integrity with which form follows function. The tower's fluid curves reflect its internal organization as it rises more than 60 stories from the arrival podium to the amenity levels, the residential floors above, and finally to a dramatic double height amenity space and Indoor Aquatic Center at the crown.

Shadows cast by the white exoskeleton on the recessed glass façade emphasize the interplay between the verticality of the tower and the horizontal lines of balconies. At the uppermost levels, where full-floor penthouses and the crown amenity space are located, a split at each corner of the tower reveals folded glass elements. In sunlight, reflections along the corner glazing give the appearance of finely cut jewels set precisely within the tower architecture.

THE CONTRAST BETWEEN THE SENSUOUS CURVES OF THE EXOSKELETON AND THE CRYSTALLINE GLAZING OF THE FAÇADE IS ONE OF THE DEFINING CHARACTERISTICS OF ONE THOUSAND MUSEUM. IT IS AN AUDACIOUS EXPRESSION OF ARCHITECTURAL INNOVATION AT THE CENTER OF THE MIAMI SKYLINE.

SIX STAR ARRIVAL EXPERIENCE

A dramatic porte cochère within the podium of One Thousand Museum offers privacy from the street and a grand sense of arrival in tune with the prestige of the tower. The parking valet and doorman attend to residents' cars and packages, and the concierge is available to address owners' requests. Private residences are accessed from the lobby via secure, high-speed elevators that feature destination-entry smart technology.

MUSEUM QUALITY DESIGN

The sculptural design of One Thousand Museum's podium beautifully complements the two recently completed Museums located in the adjacent Museum Park. The sculpted corner of the podium creates a dramatic entry to the commercial space fronting the adjacent park, making it ideally suited for a fine dining restaurant, high end boutique, art gallery or exhibition venue.

CUSTOM SCENTING BY 12.29

Adding to the elegant contemporary ambience, all interior amenity spaces, including the lobby, Wellness & Spa levels, Aquatic Center, and Sky Lounge, are lightly perfumed with signature scents designed by 12.29 olfactory consultants. These subtle ambient scents are inspired by Zaha Hadid's architectural vision as well as the lifestyle in Miami's most prestigious new residential tower. Upon request, residences can be scented with one of these custom scents or a unique new scent can be created by 12.29.*

*Residential scenting is available at an additional fee.

INDOOR & OUTDOOR WELLNESS & SPA LEVELS

Above the podium, the Wellness and Spa amenities occupy two levels of light-filled space overlooking and opening onto the Sun & Swim Terrace. The spacious fitness center is outfitted with state-of-the-art strength and cardio training equipment. It also offers dedicated indoor areas for movement training and stretching as well as a landscaped outdoor area for other fitness activities. At the second level, the Spa has been designed with private treatment rooms and a relaxation lounge.

SCULPTURAL SUN & SWIM TERRACE

The roots of One Thousand Museum's distinctive exoskeleton surround residents with Zaha Hadid's visionary design and bring contemporary art into the personal sphere on the Sun & Swim Terrace. These sculptural extensions of the tower architecture create areas of light and shadow that move around organically shaped pools throughout the day.

LANDSCAPE DESIGN BY ENZO ENEA
www.miamicondoinvestments.com

One Thousand Museum's extensive Sun & Swim Terrace and the terraces surrounding the Wellness & Spa level feature elegant landscaping by renowned Swiss landscape architect Enzo Enea. Created as a series of outdoor rooms that reflect the curvilinear form of the tower architecture, the terraces offer beautifully articulated private spaces for relaxation and socializing.

DOUBLE-HEIGHT AQUATIC CENTER & SKY LOUNGE

Within the crown of One Thousand Museum, the Aquatic Center offers an innovative infinity-edge indoor pool and the Sky Lounge provides a dramatic venue for private events, which will include a dramatic double height venue overlooking the bay and Miami beach and a separate more intimate venue overlooking the city. This level will also include a multimedia theater for private movie screenings, lectures, and presentations.

Zaha Hadid Architect's water drop pattern enhances the sculptural quality of arched interior walls throughout these spaces, and the double-height glass façade elevates the experience of spectacular panoramic views over Biscayne Bay, the Atlantic Ocean and the Miami skyline.

**BOLD AND SCULPTURAL,
FORM FOLLOWS FUNCTION**

The podium façade of One Thousand Museum is largely solid, concealing the parking garage and giving substance to a monumental porte cochère.
