MyBrickell is a bold, new statement about contemporary culture and city living. Designed by the internationally acclaimed Karim Rashid, it is a destination that combines the driving energy of Miami with the intelligence of global business and the excitement of cosmopolitan downtown leisure.

“Positive energy, heightened experiences, modern design, comfort, and spiritual well being - a place for new contemporary experiences - to enjoy, relax, socialize, work, and engage in new experiences that are memorable.”

Karim

Located in the heart of urban Brickell, alongside the Miami River, MyBrickell opens the door to all that is possible in a connected, innovative and artistic environment. The global business gateway of the Americas lives here. Dozens of cultures from all over the world flock to this unique Miami neighborhood known for style, substance and sophistication. A dramatic city skyline rests right against the turquoise waters of Biscayne Bay. All that Miami is, and all it ever will be, begins here in Brickell. Work, play, relax or engage with ease from a sleek modern residence that reflects your individuality and your vision for iconic city living.

"I don't think of my work as exclusive or elitist, I think of it as democratic yet luxurious, high designed while still friendly and accessible for everyone. I am here to democratize design, to make a better place for everyone, a more sensual, more comfortable, and more beautiful world for everyone. I want to free design. Everyday I live I believe that we could be living in an entirely different world—one that is full of real contemporary inspiring objects, spaces, places, worlds, spirits, experiences. Design has been the cultural shape of our world from the start. We have designed systems, cities, industrialization— we designed everything. Now my real desire is to see people live in the modus of our time, to participate

in contemporary world, and to release themselves from nostalgia, antiquated traditions, old rituals, and meaningless kitsch, and to be conscious and sensorial; attuned with this world in this moment. If human nature is to live in the past, then to change the world is to change human nature. I do this in all of my work whether it be space, interior, objects, products, or art. My work is about our human existence, contemporary technology, new human behaviors, social, political, and artistic agendas. I feel I must inspire. That is my goal."

Karim Rashid

"Design touches us on every level, and design can continue to define and shape our dimensional interior environments and create new progressive human behaviors and new languages."

My vision is conceptual and engages technology, visuals, textures, lots of color, as well as all the needs that are intrinsic to living a simpler, less cluttered but more sensual envelopment. Rounded objects or rooms are soft to provoke a more human friendly environment. My method is the overriding canvas of the world. A new well-being that evokes calmness and casualness, with accents of vibrant glowing colors that are refreshing, awakening, and elevating and are metaphors for a new global dynamism."

 **myneighborhood**

As one of Miami's most prestigious addresses, Brickell is made up of many upscale, luxury condominium and apartment towers. Often referred to as the "Manhattan of the South," Brickell is home to the largest concentration of international banks in the U.S. It also enjoys a reputation as Miami's top destination for five-star hotels and restaurants. At its center, Mary Brickell Village is a social hub defined by restaurants, nightlife and boutiques. The planned Brickell CitiCentre, our next door neighbor, alongside the river promises more of the same with high-end retail shopping, hotels, conference facilities and more.
